

Annual Report

External Partnerships Committee

Accomplishments: 2014-2015

- Surveyed senators' interests in areas that align with current—and possibly with future—university committee work in order to assist in placing staff representatives on committees, working groups and task forces across grounds.
- Created a working list of university-wide committees in order to track staff representation on committees.
- Assisted in placing a staff representative on the Parking & Transportation Committee and the University Human Resources Benefits Committee.

Looking Ahead

- Conduct a follow-up online survey to assess staff members' areas of interest in order to create a small database of potential staff representatives to serve on university committees.
- Send letters to each standing University committee introducing the Staff Senate, the External Partnerships committee, and solicit information regarding the committee composition, including staff representation.
- Track staff representation on University committees across grounds.
